## Projects

2013–present  
Intetics

Delivery  
Manager/Architect

### **Accelify LLC: AcceliTrack, Cheetah, IEP Plan 2.0**

Responsible for all aspects of delivery on a platform of web-based solutions for customer Accelify LLC ([www.accelify.com](http://www.accelify.com)). System has been operating in production in more than 10 states of USA for 10 years since the project start with more than 50K business users, with an uptime of 99.9%. AcceliTrack/Plan are SaaS distributed systems for tracking Medicaid services/student's data. Accountable for technical team management and technical aspects of the product. In 2013 and 2016 worked on-site in customer's office for 2 months in total.

**Primary Responsibilities:** Acted as project enabler and solution architect for latest API, 'Cheetah' and Plan/IEP subsystems. Direct day-to-day communication with Product Owner and CEO. KScrum process setup, scope and backlog prioritizing, release planning. Technical work from high level architecture to low level devOps tasks. Management of two development streams including review, coaching and people hiring.

2012–2013 Intetics

Team Lead/Senior  
Software Engineer

### **Accelify LLC: AcceliTrack, IEP Plan 2.0**

Worked as a Team Lead and managed the technical effort for a major release to deliver systems for 4 new US states into production. Grew the team from 5 to 10 developers.

**Primary Responsibilities:** Direct communication with customer and stakeholders, estimation and planning. Requirements analysis, tasks assignment, release planning, iteration planning, candidates review. Migration from NHibernate criteria to query API, core application fixes. Implemented Continuous integration.

2011–2012 Intetics

Project  
Manager/Senior  
Software Engineer

### **Accelify LLC: SST, Data Integration**

Started this short-term side project with USA-based developer. Performed various management and development activities from planning to risk management. Designed db integration to SEIS System.

**Primary Responsibilities:** Stabilization of the project, team management: communication, tasks assignment, planning and delivering product. Key developer and communication person. Migration to ASP MVC 3 and Razor view engine, MVVM implementation. On db side I performed various tasks from creation and performance tuning to setup of the MS SQL Jobs/Linked servers.

2009–2011 Intetics

Software Engineer

### **Accelify LLC: AcceliPlan, AcceliTrack, AcceliSurvey**

Acted as project enabler in a small start-up team including 2 developers and 1 qa.

**Primary Responsibilities:** Web application design and implementation (MVP,

facades). Database structure creating, merging, normalizing. Direct communication with customer, estimation and planning.

2012–2012 Intetics

### **Elitute**

Senior Software Engineer

Elitute is web education system and marketplace that connects freelance tutors with students. This is a short-term side project where my main responsibilities were setup ORM layer and design core database functionality.

**Primary Responsibilities:** Project start, Fluent NHibernate configuration and mappings creation, localization support

2006–2009  
Beldorcenter

### **Web STP, Bridges PDA, Data Export Import Tools**

Worked as .NET developer, successfully implemented 3 projects in transport area.

Software Engineer

Developed ASP.NET application for road traffic data and reports generation with Windows Mobile product and sets of data export tools.

### **Education**

Mathematician in Systems/Software Engineer  
Belarusian State University, Minsk, Belarus  
(2002-2007)

### **Certificates**
